St. Louis Mosaic Project

S2Tech to Join St. Louis Mosaic Project as Ambassador Company

St. Louis, MO – June 2019 – The St. Louis Mosaic Project is pleased to announce that S2Tech will be joining the cohort of Mosaic Ambassador Companies at the Gold Level. S2Tech, or Seven Seas Technology, is an IT and business consulting services company established by CEO and President Day Veerlapati. Offering 22 years of healthcare related experience, which spans 35 states, S2Tech is a proven partner with a mission of delighting clients by utilizing a collaboration model to assess clients' needs and create successful solutions aligned towards their business and technological goals.

S2Tech provides support to its international staff and community in a variety of ways. The company posts job opportunities on the St. Louis Mosaic Project website, has an internal welcome team for new international hires, and they celebrate multicultural events and holidays. S2Tech's CEO and President Day Veerlapati was recently featured in Mosaic Stories, and shared his story as an immigrant entrepreneur. The company also utilizes OPT-STEM international student visa program and sponsors employment work visas. Moving forward as a Mosaic Ambassador Company at the Gold Level, the company will take on additional action items in support of the international community. This will include hiring an international student for an internship, providing diversity and inclusion training for employees, and designating a strategic resource to look at special product or service offerings for new growing ethnic customers. S2Tech also looks forward to becoming more involved with the Mosaic Project through encouraging associates to become Mosaic Ambassadors, supporting the Mosaic Professional Connector program by helping foreign-born, working-authorized candidates to network and allowing such individuals to "shadow" in the work environment, and by distributing Mosaic flyers and sharing international events.

About St. Louis Mosaic Project

The St. Louis Mosaic Project was launched in 2012 in response to an economic impact report, outlining St. Louis to be lagging in immigrant growth as well as highlighting the economic benefits

of increasing its foreign-born population. The Mosaic Project is a regional initiative that is professionally managed by St. Louis Economic Development Partnership, World Trade Center St. Louis and a 32-member committee. Its goal is to transform St. Louis into the fastest growing major metropolitan area for immigration by 2025, to add 25,000 more foreign born to the region from 2016-2025 and to promote regional prosperity through immigration and innovation.
