

Metal Fabrication Manager

[Icon Design](#) is the leading provider of custom retail environments. With facilities strategically located throughout North America and operations expanding globally into Asia and Europe, Icon Design's focus is serving leading brands all over the world.

Job description

Solid knowledge and experience in the fabrication and finishing of a broad range of ferrous and non-ferrous metals. Specifically, must be versed in working with sheet and tubular stainless steel and polishing and welding needed to achieve super 8 mirror polish finish.

Experience working with brass is a positive.

Good understanding/capability with various welding and brazing processes (MIG, TIG, laser welding) Good understanding of polishing to achieve super 8 stainless finish

Ability to read, understand and work from shop drawings.

Problem solving skills for working through fabrication issues on projects that may have a unique, non-typical material and/or construction.

Ability to stay calm and confident, keeping attention to detail and to have autonomy when working to make sure mistakes are prevented and/or corrected.

Organizational skills to help maintain the production schedule and the ability to multitask between projects.

Must be able to take direction and criticism effectively, as well as follow shop protocols.

A positive attitude is a must.

Minimum of 6 years of relevant experience is required. Please only apply if you meet this qualification.
